INTERNATIONAL TRAINING

BASIC

Start your laser journey with our 3-day training in Jena, designed to build confidence and establish a strong foundation for future applications.

- Learn essential **laser fundamentals** and important laser principles.
- **Beginner-Friendly** course ideal for beginners and first-time users.
- Step-by-Step practical learning with experienced trainers.

ADVANCED

Build on your existing experience in our 2-day intensive training, designed to take your clinical expertise further.

- Expand your basic laser knowledge and **master advanced treatment protocols**.
- Tailored to regular laser users with **at least one year** of practical experience.
- Deepen your laser understanding with senior laser trainers.

EXPERT

Take your expertise further in our UK Expert Training, designed for highly experienced laser users seeking to master the most demanding clinical applications.

- Push clinical boundaries and develop solutions for challenging cases.
- For laser professionals with **3–5+ years** of hands-on experience.
- Gain exclusive insights and exchange expertise with **leading KOLs** on advanced laser procedures.
