## INTERNATIONAL TRAINING

### **BASIC**

Learn the fundamentals of laser application in our 3-day course in Jena. Perfect for beginners and partially experienced users, combining core laser physics with hands-on practice.

- Theory & Practice: Apply modern laser technology
- Flexible Level: For beginners and advanced users
- Expert Guidance: Led by experienced trainers

### **ADVANCED**

Expand your skills in our 2-day intensive course for experienced laser users, led by expert clinical trainers.

- Expert Insights: Learn from renowned speakers
- Hands-On: Practice with cutting-edge laser systems
- Advanced Techniques: Explore innovative applications
- Professional Exchange: Connect with fellow physicians and experts

### **EXPERT**

Elevate your laser skills in our UK Expert Training. Designed for experienced users, this course focuses on advanced treatment protocols and combination approaches to refine techniques and optimize outcomes.

- Specialist Insights: Learn from leading experts
- Innovative Applications: Explore cutting-edge methods
- Precision & Confidence: Master complex laser treatments
